Frank and Shannon,

(Removing Lauren from this thread and adding Avram, our IT Coordinator)

It sounds like the two of you covered a lot of ground in your conversation yesterday. I appreciate your initiative in brainstorming ways to meet our needs in this area.

I agree that we should move forward with Frank with respect to:

1. Mosyle ~ let's move up to the OneK12 tier, so that we have the tools that will be simple for teachers to use and the safety features that filter out inappropriate content. Shannon gives Frank access to our account for review.
2. WiFi ~ Frank and Avram connect regarding the work that Avram has already done in this area. I believe our connectivity issues should be resolved.
3. Frank gives our admin team a summary of what he believes we need for the upcoming year, so that we can determine what Avram can manage, what Shannon might agree to continue to tackle, and how we might need Frank to support us.

I am around all summer, except for July 3rd and 6th and am happy to handle the follow up to this conversation.

Warmly, Annie

## Key Takeaways

- **Decision made:** Annie (Head of School) approved moving forward on all three items
- **Mosyle OneK12:** Approved. Shannon to give Frank account access for review.
- **Wi-Fi:** Frank to connect with Avram (IT Coordinator) — Avram has already done work in this area
- **Summary deliverable:** Frank to give admin team a needs assessment for the upcoming year — what Avram can manage, what Shannon tackles, where Frank supports
- **New contact:** Avram — IT Coordinator. Added to thread by Annie.
- **Annie availability:** All summer except July 3rd and 6th
- **Tone:** Warm, decisive, action-oriented. This is a green light, not a “let’s discuss more.”
