

Frank → Erin (NBA) — DRAFT v2 (do NOT send as-is)

Disambiguation needed before send

User said “Northridge” in this turn; context (Mosyle, Annie’s 7/1 email, “Aaron and Dave” thread) all point to **North Bridge Academy** (17 Buena Vista, Mill Valley). The vault also has a separate, folder-missing lead called “Northridge” — line 95 of [[Daily/2026-07-06]] flags it as 25d stale, TBD stage.

Action item (user): Confirm before send. I’d default to North Bridge Academy. If it’s the OTHER lead (Northridge), say so and I’ll redirect.

Updated meeting parameters (per Frank’s instructions, 7/6 PM)

- **Date:** Tuesday, 7/7
- **Attendees:** Frank + Erin only (no Dave, no Annie)
- **Focus:** Mosyle account walkthrough on-site — Frank gets admin access and sees the account, current configuration, licensing tier
- **NOT in scope for this meeting:** broader engagement scoping, Wi-Fi / Avram, admin-team summary (defer until Mosyle is squared away)

Email draft (v2)

To: Erin Minuth Terris erin@northbridgeacademy.org **Subject:** North Bridge — Mosyle walkthrough on Tuesday 7/7

Hi Erin,

Thanks again for jumping in on this. I want to get moving on Mosyle while you’re on campus tomorrow, before either of us loses the on-site window.

Can we set up a quick on-site walkthrough with just the two of us on **Tuesday, 7/7**? My plan is to keep it focused — Mosyle only:

- Sit down at a Mac with the Mosyle admin console open so I can see what's currently configured: device groups, profiles, current licensing tier, MDM enrollment status.
- Get myself added as an admin on the NBA Mosyle account. Annie green-lit OneK12 on 6/17 but I haven't had a chance to review what's already in place.
- Quick look at the iPad closet and one classroom — gives me ground truth on what we're managing before I draft anything.
- ~15 minute check-in at the end to confirm next steps and timing for a follow-up.

A window like **9:30–10:30 AM Tuesday** would work great. If that doesn't fit your Tuesday schedule, an early afternoon slot works too — just let me know.

I'm holding off on the broader conversation (Wi-Fi / Avram, the admin-team needs summary, the engagement shape beyond Mosyle) until we've squared the Mosyle account away. Cleanest that way.

See you tomorrow.

Frank
