North Bridge Academy — Initial Device Inventory (engagement-ready)

Purpose. Convert Erin’s day-prior-to-7/7 walkthrough counts into the working device inventory Frank can act on for Phase 1. Source of truth for Mosyle admin + ASM organization work; updated as the engagement produces more accurate counts.

SCAFFOLD 2026-07-13: This file was created as the highest-value LTC artifact not yet on disk (overdue from 7/9). First-pass table is filled in from the `[[leads/ltc-north-bridge-academy/meeting-2026-07-07-erin-mosyle|7/7 walkthrough notes]]`. **Frank to refine with Erin** — particularly the per-cart and per-generation breakdowns.

Headline Counts (per Erin’s walkthrough, 7/7)

Metric	Count	Source	Status
iPads total	121	Walkthrough 7/7 + ASM check	✓ Erin confirmed
Macs in ASM	8	Walkthrough 7/7	⚠ Gap — should be higher; ASM cleanup task
Apple TVs	8	Walkthrough 7/7	⚠ Classroom assignment unverified
Carts (per-homeroom)	~10	Walkthrough 7/7 (12 iPads per cart)	✓ Erin confirmed

Metric	Count	Source	Status
Faculty laptops	TBD	Per-homeroom: all faculty get laptops	? Total count + Apple/non-Apple split TBD
Faculty iPads	TBD	“Some have, not policy”	? Ad-hoc; Phase 1 decision

iPads (121 total)

Per-homeroom cart structure: 12 iPads per cart, ~10 carts. Students identify iPads by **name label** (not profile). Cart-level app deployment today; **Lower School vs Middle School partition** is the August Phase 1 path. Per-student personalization is a Phase 2 conversation.
