

Susan Allen — Squarespace Template Shortlist

Shortlist of 4 Squarespace templates from the **Health & Beauty** category that fit "warm/specialty health practices." Selected 7/13 against the WFC 6-gate framework + Susan's specific specialty (reproductive + perinatal mental health). Each goes through a full audit in [template-audits](#).

The 22 health/beauty templates surveyed

From <https://www.squarespace.com/templates/browse/topic/health-beauty/> (22 total, 7.1-era):

Aurora · Jenani · Anza · Looped · Fletcher · Achromatic · Kusa · Meriden · Florence · Almar · Randi · Myhra · Altaloma · Saltless · Emmeline · Maca · Alignflow · Lakshi · Clune · Colima · idrah · Clove

Why these 4

Susan's site needs (per [leads/wfc-susan-allen/dossier > WFC-Fit-Analysis](#) + [leads/wfc-susan-allen/SOW-2026-07-07](#)):

1. **Specialty-prioritized** — ASRM/PSI credentials prominent (her biggest SEO differentiator)
2. **Warm, not sterile** — reproductive + perinatal = users are often anxious, overwhelmed
3. **Services section** — currently missing; "/services" silently redirects to home
4. **About / team showcase** — credentialed practitioner pages
5. **Contact + intake-friendly** — even though intake stays in email, the path to contact must be clear
6. **Calm color palette** — WFC Calm Base target: peachy cream + sage green
7. **Mobile responsive** — many prospective clients browse on phones during a moment of stress

Shortlist

#	Template	Demo URL	Specialty fit	Why I picked it	What it lacks
1	Clove	clove-fluid-demo.squarespace.com	 EXCELLENT	Literally a "mental health collective." Has Services, About, Team, Blog, Contact. Testimonial pattern. "Providing you with a safe space to relax" —	Team page implies a group practice; Susan is solo. Some swappy text.

#	Template	Demo URL	Specialty fit	Why I picked it	What it lacks
				language Susan can adopt. In-person + remote option copy. Team page with credentials (PSY.D, MD, PHD, ND, LAc) — exactly Susan's pattern with ASRM/PSI.	
2	Jenani	jenani-fluid-demo.squarespace.com	🟢 STRONG	"Holistic healer" template. Services section ("My services"), FAQ section (expand/collapse — matches WFC FAQ block in the SOW), contact form, "Pillars of care" framework (Intentional / Affirming / Generative) which translates to Susan's clinical values.	Schedule/bookin integration is built-in but Susar wants email-only — easy to swap CTA. Pricing page exists but Susan doesn't publish pricing.
3	Clune	clune-fluid-demo.squarespace.com	🟡 STRUCTURAL FIT, AESTHETIC STRETCH	Clean, simple, well-structured. Pages: Services, About, Team, Contact. Has Book Appointment CTA. Color palette option "Light Gray, Light Pink, Sage Green" is almost exactly WFC's Calm Base.	"Boutique spa" flavor — not therapist-specific Some copy needs translation ("Pamper your skin with products that are safe enough to eat" is decidedly un-Susan).
4	Aurora	aurora-fluid-demo.squarespace.com	🟠 STRETCH	Visually warm, gradient-	E-commerce built in (cart, "BOOK

#	Template	Demo URL	Specialty fit	Why I picked it	What it lacks
				friendly, "wellness retreat" aesthetic. Big section dividers ("Energy", "Healing") give it a strong identity.	EXPERIENCE", date pickers for booking). Susan's SOW explicitly removes online booking. Architecture overhead.

Templates I deliberately didn't include (and why)

- **Meriden** — coaching template with newsletter + course product. Susan doesn't sell courses.
- **Anza** — too minimal, lacks specialty-prioritization structure.
- **Fletcher** — minimalist, but the structure is portfolio-style (not services + team).
- **Achromatic** — "achromatic" suggests black/white/grey palette; fights the warm target.
- **Looped** — community-feel, leans toward group/fitness, not solo practitioner.
- **Kusa, Lakshi, Maca, Saltless, Emmeline, Randi, Almar, Myhra, Altaloma, Alignflow, Colima, idrah, Florence** — not surveyed in depth; would need full audit pass. Strong candidates may emerge in [template-audits](#) follow-ups.

Recommendation preview

Primary recommendation: Clove — purpose-built for mental health practice, structurally complete, language aligns with Susan's voice. Will need a small pass to:

- Replace group-practice content with solo-practitioner copy
- Add Susan's ASRM/PSI credential prominence (Clove already has team page with credentials, this fits)
- Swap out the "Book Consultation" CTA for "Email Susan" per SOW out-of-scope
- Apply WFC Calm Base palette (Clove's default color story may not match — needs visual review)

Backup: Jenani — if Clove's group-practice framing is too off-base for Susan, Jenani's solo-practitioner vibe + FAQ block is a clean substitute.

Full scoring in [comparison](#).
